

Going Green Has
Never Been Ea\$ier!

It's Time To Make
A Difference!

Enjoy A Tree

enjoyatree.com

Enjoy A Tree is a citywide campaign designed to help cover the carbon footprint produced by the restaurant involved.

Pick as many items off your menu (*3-5+ ideally*) and for each item sold you will give 15 cents to Enjoy A Tree. In return, Enjoy A Tree will plant trees primarily in third world countries.

Moringa trees will be our focus as they also produce edible leaves and fruits. This will also positively impact the malnutrition problems facing these countries.

Only 100 trees per month is required to participate - that's a minimum of only \$15 per month. No contract required and you have the option of discontinuing the program at any time.

Quarterly you will receive an email reminding you to total up the amount of items sold and send a check to Enjoy A Tree. In return for your support, your restaurant will reap the rewards the marketing campaign will have to offer.

In addition to the menu items, you also have the option to sell gift certificates online through Enjoy A Tree with a percentage of those sales going to the tree planting effort as well!

If you have any questions, please contact Kevin Kilper at KevinKilper@yahoo.com www.EnjoyATree.com
